## EcoPulplast project - RESULTS UPDATE

Encouraging results for the first phase of Ecopulplast project!

The **prototype line** on industrial scale manufacturing has been realized and is currently being assembled and tested.

At industrial plants of external suppliers, **preliminary tests** of printing on heterogeneous plastic pallets were also performed.

Particularly important is the **validation phase** of the pallets under real conditions of use, which is necessary to demonstrate their performance and the overall life expectancy.

## ANNUAL WORKSHOP UPCOMING SOON

One year after the first conference in Capannori, we are glad to announce that a second Life Eco-Puplast meeting is coming soon.

We will present the first outstanding results of the project focusing on the **benefits** that a **circular economy** by recycling pulper waste will bring to **paper mills and Lucca Paper district**.

[Stay tuned!](#)
